EXPERIENCE

First Information Technology Services

Information Security Analyst

Bellevue, WA

May 2019 - Present

- Supported a third-party contract assisting a “Big N” tech company in acquiring and maintaining FedRAMP certification
- Created and delivered federal compliance documentation that attests to the security posture of the organization based on monthly vulnerability scanning and remediation
- Developed a Python application utilizing the Azure DevOps Rest API that performs procedural generation of artifacts based on variable criteria

Defense Point Security

Junior Cyber Defense Analyst

San Antonio, TX

Dec 2018 - May 2019

- Identified, triaged, and reported malicious activity originating from numerous threat sources (phishing, web exploitation, etc.)
- Supported the Security Operations effort in multiple managed virtual environments through alerts determined from various log sources (IPS/IDS, firewall, network, etc.)
- Provided detailed reporting to clients by utilizing security software such as Splunk, FireEye HX/NX/AX, and several OSINT tools

TraceSecurity

Associate Information Security Analyst

Baton Rouge, LA

June 2017 - Dec 2018

- Performed security awareness testing and training as a service through the use of social engineering and phishing engagements
- Assisted clients' vulnerability scanning and management process by utilizing TraceSecurity's proprietary vulnerability scanning package
- Performed penetration tests against clients' externally facing systems and provided detailed reporting of immediate threats, vulnerabilities, and recommended remediation strategies

Law Enforcement Online

Senior Technical Support Operator

Baton Rouge, LA

Dec 2018 - June 2017

- Administered identity and access management for multiple web services utilized by law enforcement personnel
- Managed and supported a team of operators to ensure enforcement of security policies and procedures
- Provided users with remote technical support to ensure the availability of mission-critical applications within each domain
